

03 SKY

We're all human in this strange environment
A tiny part of this, just a tiny part
Take care of the days that's have been given you
A little while in this, just a little while

We're pawns in the game
Small pieces
Pawns in the game
Where's the reason

How does it feel to run into the sun
How does it feel to fly
How does it feel to sail upon a cloud
Before you reach the sky

The secret in life is hiding inside you
A tiny part of this, just a tiny part
Take care of the love that's been giving you
A little while in this, just a little while

We're pawns in the game
Small pieces
Pawns in the game
Where's the reason

How does it feel to run into the sun
How does it feel to fly
How does it feel to sail upon a cloud
Before you reach the sky

Oh tell me...
How does it feel to run into the sun
How does it feel to fly
How does it feel to sail upon a cloud
Before you reach the sky
