

09 SUITS MY SOUL

Wasn't it brave to run out in the dark
You said "Just go for it"
I just have to find that special place
That suits my soul

The only way to try is to go out searching
The only way to find is to open your eyes
Just have to find that special place
That suits my soul

Outside my shade
Far out of my surface
Cause if I had stayed
I'd always be obsessed with this thought

Maybe it isn't far at all
Maybe it's just 'round the corner
Maybe I have to lose control
Maybe it's written in the stars
Maybe it's just a strange illusion
Maybe I never find the place
That suits my soul

I've been walking through rain and shine
Hoping to find my place
The only thing I see this is the way
That suits my soul

Outside my shade
Far out of my surface
Cause if I had stayed
I'd always be obsessed with this thought

Maybe it isn't far at all
Maybe it's just 'round the corner
Maybe I have to lose control
Maybe it's written in the stars
Maybe it's just a strange illusion
Maybe I just have found the place
That suits my soul
Suits my soul
Suits my soul
