

## 02 WHEN I RETURN

Like a bird that flies from frozen light  
I escaped from you  
Cause I needed distance from my fright  
Help me to realize  
From the day you entered my life  
You confused my day and night  
You made my heart fall apart  
I'm reeled back to you

When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word  
When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word  
Oh Trust me

So the bird returns when the light's turned on  
Finds the way right back  
Why do I deny where my heart belongs  
I must start it over and face the fact  
Like a bird's how I want to fly  
Right into your arms  
You made my heart fall apart  
I'm reeled back to you

When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word  
When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word  
Oh Trust me

When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word  
When I return I'll run to you  
My heart will burn 'til I'm close to  
What I have learned I'll share with you  
Trust me on my word
